

# RICKY VINAYACHANDRAN

ARCHITECT & URBAN PLANNER

## EDUCATION

- 2006** International Community School  
GCSE, AS & A-Levels
- 2013** German University of Technology (GUtech)  
BSc in Urban Planning & Architectural Design

## WORK EXPERIENCE

- 2011** Worked under Nikolaus Knebel, associate Professor of Urban Planning & Architectural Design in GUtech. I mainly reproduced floor plans of known works by Architects using AutoCAD. Then reproduced 3D models of each project using 3D software, Rhinoceros. The 3D models were edited on Adobe Illustrator to better represent, dissect & create perspective views. The final result of the work was to produce such plans & compile into an educational booklet for future students of Urban Planning & Architectural Design in GUtech.  
Helped in Exhibition organization of The Architectural Association of London (AA) under Omid Kamvari, head of AA Visiting School in Muscat, Oman.
- 2012** Internship for Kamvari Architects, a London based office. Worked on preliminary stages of University pavilions. I basically helped design & test different structural components of multiple pavilion concepts.  
Designed & built, together with Iman Al Ajmi, a privately owned farm house in Barka, Oman. The house was a courtyard style villa with shaded pool area.
- 2013** Architect/Urban planner in Mode Consultancy Services, a Muscat based office. Mainly designed & supervised build of interior/exterior beautification works ranging from private villas to hotel resorts.
- 2014** Design program instructor at the GUtech (2014). Formulated design courses following the Aachen University curriculum & lectured two separate semesters on design related soft wares such as AutoCAD, Rhino, Adobe Suite.
- 2015** Architect at Designers & Architects (D&A). Designed interior/exterior of residential & commercial projects mainly within Oman. Site ID consultant for hospitality & commercial projects (ongoing).
